

ONE SCHOLARSHIP CAN MAKE ALL THE DIFFERENCE.

Every year, University of Maryland students face \$80 million in unmet financial need. As part of our commitment to access and affordability for students in need, we have created the **TerpStart** Matching Scholarship Program.

TerpStart doubles the awards granted from new, need-based endowed scholarships **forever**, magnifying their impact exponentially. This matching program opens the doors to learning outside the classroom, conducting world-changing research and participating in Maryland's outstanding arts and athletics programs. It fuels students' passion, boldness, curiosity and inspiration.

It's a Team Effort

YOU

- commit to helping Maryland students in need.
- choose to support students from a particular college, school, major or department; specific county or high school; or any combination of these.
- fund a new endowment of at least \$30,000, payable over five years. Income produced by the endowment will be awarded in annual scholarships.

THE STUDENT

- demonstrates financial need.
- maintains satisfactory progress toward a degree.
- graduates with less debt.

THE UNIVERSITY

- matches the spendable income generated each year by the endowment, doubling the scholarship's impact in perpetuity.
- selects an eligible student(s) to receive the award.

Partner with the university before June 30, 2015 to create and name a TerpStart Matching Scholarship. For more information or to make a gift, contact Heidi Onkst, senior director for university development for strategic initiatives, at 301.405.4643 or honkst@umd.edu.
